Example of Tower Dump request law enforcement uses FYI:

Tower Dump wording:

WHEREFORE, the State respectfully requests the Honorable Court approve this warrant directing _____ (Insert Wireless carrier) provide a "Tower Dump" for the Base Transceiver station(s) responsible for communications for the location of _____ (Insert Latitude and Longitude) for the time period of _____ (Insert time period).

Supporting information for affidavit:

1. As law enforcement investigators arrived at the scene and started to interview witnesses in the case, it was learned that the victims did communicate with the witnesses via cellular devices.
2. Investigators know that Cellular telephones communicate by accessing Base Transceiver stations (BTS) which connect that communication to the network. Upon connecting to the BTS a registry is created that allows.
3. Wireless Service Providers maintain that Registry and it can be supplied to Law Enforcement with the issuance of legal process.

4. That Registry, know to Law Enforcement as a “Tower Dump” is able to identify any cellular device that communicated with that tower in any manner, IE inbound or outbound calls, SMS messages and data communications.

5. Those Tower Dump records will identify anyone who accessed a tower during a specific time frame, which will identify anyone near the scene of the incident at the time of the incident.

6. These records can identify the suspect, or any unknown witnesses.

7. The Petitioner certifies that there are reasonable grounds to believe that the records and the information sought by the State are relative in material to the ongoing criminal investigation.
